EXAMINER'S ACTION

Serial No. 310252
Art Unit 186

An election was made on paper number 6 filed on 5/26/90 electing group I which consisted of claims 1-6, 8-11 and 17-23. However, the examiner deemed it necessary to further restrict the elected group into the following groups.

5 A telephone call was made to William Smith, on 2/28/91, to request an oral election to the further restriction requirement, but did not result in an election being made as the applicant prefers to receive all requirements in writing.

Restriction to one of the following inventions is required
10 under 35 U.S.C. 121:

I. Claims 1-6, drawn to a method of preparing humanized antibodies, classified in Class 435, subclass 69.6.

15 II. Claims 8-11, drawn to a second method of preparing a humanized antibody, classified in Class 435, subclass 69.6.

III. Claims 17-23, drawn to a method of improving the affinity of a humanized immunoglobulin, classified in Class 435, subclass 69.6.

20 The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are two distinct methods of making a humanized antibody incorporating different steps in each method. Therefore, inventions I and II are subject ^{to} restriction.

25 Inventions (I and II) and III are distinct methods in that inventions I and II are methods of making a humanized antibody

Serial No. 310252
Art Unit 186

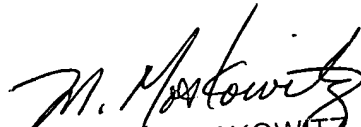

while invention III is a method of improving the affinity of a humanized antibody. Due to the different steps involved in the methods, the three inventions are subject to restriction requirement.

5 Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must
10 be accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lila Feisee whose telephone number is (703) 308-2731.

15 Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
